

**Peace of Mind**

**Gibson**<sup>®</sup>

**Gibson<sup>®</sup>**

The word "Gibson" is written in a bold, black, sans-serif font. A small registered trademark symbol (®) is located at the top right of the letter 'n'. A solid red horizontal line is positioned directly beneath the text, extending across its entire width.

# Gibson®

*Gibson began in 1877 as two separate companies. Joshua Hall, a New England icebox maker, moved to Belding, Michigan, and founded the Belding-Hall Company. He was attracted to the area because of the outstanding cabinet making skills of the Danish craftsmen who had settled there and because of the plentiful supply of ash and other hardwoods.*

*In that same year in nearby Greenville, Michigan, Frank Gibson and John Lewis also began manufacturing iceboxes, which they called "ice refrigerators." The two companies developed separately until 1908 when Frank Gibson bought the Belding-Hall Company. The merger created the largest manufacturer in the industry at the time and a major supplier of cabinets for the first electric refrigerators.*

**Peace of Mind**

# Company History

- 1931: *The first two-zone, two temperature refrigerator, with Pres-Toe door opener and cycle type defrosting. The first interior light that automatically shuts off when the door is closed. Baked enamel food compartments.*
- 1937: *The first revolving refrigerator shelf*
- 1939: *Introduced the concealed oven vent, the second oven and push-button cooking for ranges.*
- 1946: *The first upright freezer.*
- 1949: *The Gibson International Division was established.*
- 1950: *The first Touch-a-tap cold water feature.*
- 1951: *The first Swing-out refrigerator crisper bin.*
- 1953: *The first ozone lamp in room air conditioners that removed room odors.*
- 1954: *Tel-O-Matic cooking introduced to simplify automatic cooking.*
- 1955: *Introduced the freezerless Market Master refrigerator.*
- 1956: *Gibson became part of Hupp Corporation.*
- 1959: *Introduced Air Sweep method of air distribution into air conditioning.*
- 1961: *Automatic defrost refrigerator introduced with one control, one fan and one evaporator.*
- 1967: *Gibson became part of White Consolidated Industries when WCI purchased Hupp Corporation. Built the 32-inch side-by-side Foodmaster practical for a majority of homes.*
- 1986: *WCI purchased by AB Electrolux of Sweden.*
- 1996: *All U.S. manufacturing facilities are ISO9000-certified.*
- 1998: *Introduced Ice & Water Filtration System in side-by-side refrigerators.*
- 2001: *Introduced 21st Century refrigerator line with energy-saving climate controlled defrost timer and toggle-lock cabinet construction.*
- 2002: *Gibson earned commercial rating on all chest and upright frost-free freezers.*
- 2004: *Introduced 60cm counter depth refrigerators with Easy Clean Real Stainless Steel*
- 2005: *Introduced the new color Silver Mist, with the look of stainless steel, for refrigerators*
- 2007: *Gibson celebrates its 130th anniversary*
- 2009: *Gibson introduces an American-style front load washer and companion dryer*
- 2011: *French door bottom mount refrigerators are added to the Gibson line*
- 2012: *Gibson celebrates its 135th anniversary*
- 2013: *Gibson debuts its high-efficiency top load washers, dryers and laundry center*

Removable Baskets with Color Clips

## Features:

### Thicker Insulation

For improved cooling and energy efficiency.

### Ultra Flex Organization

Removable basket with color clips makes it easy to sort and find food.

### Removable Storage Baskets

1 Full Upper Plastic with Color Clips

### ColdPro Lid

Lightweight, flexible lid stays sealed even on uneven surfaces, ensuring your food is protected.

### 7-Year Warranty

The superior 7-year warranty guarantees replacement parts for the entire sealed system.

### Lock with Pop Out key

The lock with key allows you to restrict access if necessary. Properly locked, small children will not have access to the freezer.

### Power-on Light

The "Power-On" light glows continually as long as there is power. It warns you that the freezer is not working.

This Chest Freezer is manufactured with thicker insulation that improves energy efficiency and keeps food frozen for over 3 days if there is a power outage! The 7 sides of cooling inside the freezer provide maximum deep freeze cooling. The tight seal on the flexible lid keeps the cold air in and hot air out. The UltraFlex Storage baskets with color-coordinated clips that snap-on can be used to organize items by categories or purchase date so items are much easier to find.
