G12RF-MSBG30V5LW-A

Specifications - French Door Refrigerator

The Electronic Controls and Display are located on the interior of the left refrigerator door. At the top of the display is the Power On/Off and Default Settings reset button followed by the Celsius/Fahrenheit Temperature Selector. The alarm reset is found in the middle of the display and needs to be selected after the Open Door, High Temperature or Power Failure Alarms are activated. At the bottom of the display are the digital temperature displays for the refrigerator and freezer sections that can be adjusted precisely in one degree increments.

The Cool White LED Transition Lights in both compartments are easy on the eyes and gradually intensify to illuminating brightness after you open the door.

This model has earned an 'A+' Energy Rating which will save you money as well as save the environment.

The unique 'Peace of Mind' 7-Year Sealed System Warranty is a special guarantee that covers the compressor and all parts of the refrigerator's sealed system.

You can have peace of mind knowing that your food is being preserved in ideal conditions in a Gibson refrigerator.

Positive Displacement Pump
Lighted Power Switch
6m/20 ft. Discharge Hose

ClearFlo

This system can be easily and conveniently installed in a cabinet or under the counter next to the refrigerator.

The revolutionary ClearFlo water dispensing system resolves the concerns about side-by-side refrigerators with ice and water dispensers and top mount refrigerators with ice makers. This compact system is the solution to the problems of water pressure, purity and temperature.

The ClearFlo was designed to pump water from a commercially available 5-gallon water bottle. The system will

deliver the water under pressure to the water inlet of the refrigerator. When the suction wand is inserted into the 5-gallon water bottle, it will activate the float switch on the end of the wand and turn on the pump. This same float switch shuts off the system when the bottle is empty.

New

Top Mount Refrigerators - 581 Liters

The 581-liter/20.5 cu.ft line offers 6 models from which to choose. These models have earned an 'A+' Energy Rating which will save you money as well as save the environment. The Deluxe Climate Controlled Defrost allows the defrost cycle to occur as necessary according to climate and usage conditions, even in the event of frequent power outages. The result is energy savings for you.

All of these models are also built with new coordinating metal handles. Select models have improved natural look lighting that is achieved with special blue light bulb shields.

Your fruits and vegetables will last longer when stored in the Ultra Humidity-Controlled Crisper Bins. These models have either front or side controls on the crisper bins.

You can have peace of mind knowing that your food is being preserved in ideal conditions in a Gibson refrigerator.

FEATURES

Select models are designed with additional bins, drawers and baskets that make organizing and finding your food easier.

Pull-Out Freezer Basket

Easily reach items by eliminating stretching to get to frozen food stored in the back of this basket.

Tilt-Out Freezer Door Bin

This bin tilts forward so that you can quickly grab packages stored in the front or back.

Adjustable Freezer Shelf

Place the shelf in one of two positions to meet your freezer storage needs.

Twin Bin with Lift-Up Shelf

This adjustable two-level door bin has a shelf that can be lifted up to fit tall items.

Full-Width Deli Drawer

Conveniently keep meat, cheese, yogurt and even platters of food in this extra wide drawer.

Half-Width Adjustable Shelves

Arrange these refrigerator shelves, some of which slide out to bring the food to you, in a variety of ways to accommodate any size container, package or bottle.

Air Lock Door Gaskets

The improved cabinet liner and door gasket design increases energy efficiency by eliminating air from escaping from the interior.

Reversible Doors

All models now have doors that can open from the left or right to meet your kitchen's requirements.

Top Mount Refrigerators - 467 or 419 Liters

COMMON FEATURES

Frost Free Operation
'A+' Energy Rating
Deluxe Climate Controlled Defrost
Full Cycle Airflow
Covered Dairy Compartment
Optional Ice Maker Kit (IM220)
Reversible Doors
Air Lock Door Gaskets
Galvanized Steel Cabinet
2 Adjustable and 2 Fixed Rollers

The newly expanded line of Gibson top mount refrigerators, built in North America, includes feature enhancements that make organizing and finding your food even easier.

The 467 liter and 419 liter line offers 3 models from which to choose. The 467 liter models have earned an 'A+' Energy Rating which will save you money as well as save the environment. The Deluxe Climate Controlled Defrost allows the defrost cycle to occur as necessary according to climate and usage conditions, even in the event of frequent power outages. The result is energy savings for you.

Specifications - Top Mount Refrigerators

Ultra Humidity-Controlled Crisper Bins

Your fruits and vegetables will last longer when stored in these bins. The separate humidity controls for 467 liter models are located on the side of the bins.

Adjustable Freezer Shelf

Place the shelf in one of two positions to meet your freezer storage needs.

Air Lock Door Gaskets

The improved cabinet liner and door gasket design increases energy efficiency by eliminating air from escaping from the interior.

Reversible Doors

All models now have doors that can open from the left or right to meet your kitchen's requirements.

Oversized Door Bins

Easily store wide and tall items in the extra large bins.

You can have peace of mind knowing that your food is being preserved in ideal conditions in a Gibson refrigerator.

The new Gibson MRAD19V9KS all refrigerator is designed to make organizing your fresh foods easier. With numerous convenient compartments like the 4 Adjustable Door Bins and 2 Fixed Door Bins, 3 Glass Shelves, Snack Compartment and Dairy Compartment, the MRAD19 has a place for large and small items. It also provides abundant space for large platters of food and a surplus of fruit and vegetables.

The Easy Clean Stainless Steel Door has a protective coating that reduces visible fingerprints and smudges.

This model is designed with Cold Pro Plus Electronic Controls and Display on the interior. You can set the exact temperature on the display as well as activate the Safety Lock. The alarms alert you when the interior temperature rises to an unsafe level, power is lost or the door is left open. The

Fresh Air Filter removes odors from the freezer to keep your foods tasting fresh. The Superior LED Lighting gradually intensifies after you open the door and makes it easier to find your stored foods.

With Frost Free Operation, you are relieved of the burdensome chore of defrosting the freezer. The unique 'Peace of Mind' 7-Year Sealed System Warranty is a special guarantee that covers the compressor and all parts of the refrigerator's sealed system.

Pair this model with its companion upright freezer MUFD19V9KS for 1048 liters of fresh and frozen food storage. For a built-in look, add optional trim kit TRIMKITEZ2 for the pair and TRIMKITEZ1 for the refrigerator only.

You can have peace of mind knowing that your food is being preserved in ideal conditions in a Gibson all refrigerator.

Upright Freezers

- Frost Free Operation
- Adjustable Temperature Control
- Left Door Swing
- 4 Wire Shelves
- 3 Adjustable Shelf Organizers (MUFF21)
- 2 Adjustable Shelf Organizers (MUFF17)
- 2 Sliding Storage Baskets with Adjustable Organizers and 6 Door Racks (MUFF21)
- Sliding Storage Basket and 5 Door Racks (MUFF17)
- Interior Light
- Lock with Pop-Out Key
- Textured Steel Exterior
- White Color

For maximum frozen food storage, invest in a Gibson upright freezer. These models are built in the US according to strict quality standards with numerous safety and convenience features. The new Adjustable Organizers make it easier to keep your food organized and visible.

The MUFF21VLHW and MUFF17VLHW have a left hand door swing and can be combined with the MRA21 or MRA17 to create the "Kitchen Combo". Each offers a combined capacity of 1,162 liters / 41 cu.ft or 946 liters / 34 cu.ft., respectively, for fresh and frozen foods.

With Frost Free Operation, you are relieved of the burdensome chore of defrosting the freezer. The handy Lock with Pop-Out Key keeps the door closed and securely locked whenever you need to control access.

The unique 'Peace of Mind' 7-Year Sealed System Warranty is a special guarantee that covers the compressor and all parts of the freezer's sealed system.

You can have peace of mind knowing that your food is being preserved in ideal conditions in a Gibson upright freezer.

G12FF-MUFD19V9KS-A

For maximum frozen food storage, invest in a new Gibson 19 cu.ft. upright freezer. This new model is built in the US according to strict quality standards with numerous safety and convenience features. The Easy Clean Stainless Steel Door has a protective coating that reduces visible fingerprints and smudges.

The MUFD19V9KS is designed with Cold Pro Plus Electronic Controls and Display on the interior. You can set the exact temperature on the display as well as activate the Safety Lock and Extreme Freeze functions. Extreme Freeze increases freeze time by 33% when you need to freeze food quickly. The alarms alert you when the interior temperature rises above -5 Celsius, power is lost or the door is left open.

Super Chill Airflow is created with two louvered ports that provide multi-directional airflow for superior and consistent freezing.

The Fresh Air Filter removes odors from the freezer to keep your foods tasting fresh. The Superior LED Lighting gradually intensifies after you open the door and makes it easier to find your stored foods.

With Frost Free Operation, you are relieved of the burdensome chore of defrosting the freezer. The unique 'Peace of Mind' 7-Year Sealed System Warranty is a special guarantee that covers the compressor and all parts of the freezer's sealed system.

Pair this model with its companion all refrigerator MRAD19V9KS for 1048 liters of fresh and frozen food storage. For a built-in look, add optional trim kit TRIMKITEZ2 for the pair and TRIMKITEZ1 for the freezer only.

You can have peace of mind knowing that your food is being preserved in ideal conditions in a Gibson upright freezer.

- Low and High Voltage Protection
- Failure Detection System
- Safety Lock
- 180 Degree Wide Door Opening
- Radio Frequency Interference Filter
- Removable Plastic Top
- Adjustable Feet
- White Color

The 7.0kg front load washer GLCD07FGMW3 is designed with 14 wash programs that will efficiently wash all of your laundry. This model has numerous features that allow you to tailor the wash function to your needs, such as rinse and hold, no spin, spin only, cold wash, pre-wash and eco wash. Set the washer to start at a later time in the day with the delay start function.

This front load model is equipped with several safety features to give you extra peace of mind.

The safety lock prevents changes from being made to the control panel settings while the washer is operating. The low and high voltage protection stops the washer from operating if the voltage is below or above the 170-240 volt range. The failure detection system alerts you of a system failure through a blinking light displayed on the control panel.

You can have peace of mind with a Gibson washer!

High Efficiency Top Load Washers

Your clothing will experience gentle care with Water Wave Wash Action. The two-direction tub spinning efficiently guides water and detergent through the fabrics, while fully submerging them in water.

With each load, ProFill initiates the wash program with an intense flow of water that thoroughly soaks the load and fills the tub to the appropriate level while the tub rotates before the wash program begins.

Fresh Plus Rinse Technology uses a fresh water rinse to remove residual detergent from laundry.

CleanPro

A new Gibson CleanPro high-efficiency top load washer and matching electric dryer will be your best new investment.

The MHE10BZEMW and MHE10BZDMW washers operate with energy and cost-saving features and functions similar to a front load washer but have the classic top load design. The CleanPro washer senses the laundry load size and automatically determines the appropriate level of water.

The controls offer 3 additional wash options, 8 wash programs (including energy saver and bed sheets specialty cycles) and 4 water temperatures to suit your laundry cleaning needs. Model MHE10BZDMW also has dual language Arabic and English controls.

You can have peace of mind using a Gibson high-efficiency top load washer to safely clean your laundry!

The Extra Spin option extracts even more water from your laundry so that drying time can be reduced.

The Extra Rinse option provides an additional final rinse. It is ideal for washing baby clothes.

The Energy Saver program reduces energy used by lowering the water temperature, reduces water used by decreasing the water level, and removes more water to lessen drying time.

The ProAction Tub with Lifetime Warranty is durable and guaranteed to last for the life span of the washer.

The Out-of-Balance Protection System ensures quiet operation for small and extra large loads.

Electric Dryers

CleanPro

The CleanPro Plus Size 10.1kg / 7.0 cu.ft. dryer can dry more of your laundry at one time, saving time and energy.

The Balanced Dry System creates an airflow pattern that allows for maximum efficiency and even drying.

The 4 Automatic Drying Cycles will help to keep your clothes looking new by preventing overdrying.

A new Gibson CleanPro electric dryer and matching high-efficiency top load washer will be your best new investment.

The durable MED10ZDMW and MED10ZEMW dryers will safely dry an extra large load of your laundry. The controls offer 3 additional options, 8 drying programs and 4 temperatures to suit your laundry cleaning needs. The

Air Dry temperature selection provides tumbling with no heat for when you need a quick fluff of an article of clothing or for delicate fabrics.

Model MED10ZDMW also has dual language Arabic and English controls.

You can have peace of mind using a Gibson dryer to safely dry your laundry!

Wrinkle Release reduces wrinkles by tumbling clothing without heat for an extended period of time.

The extra large door is reversible so that you can open it to the left or right for easy access.

The End-of-Cycle Chime can be set on the Options control so that you can be notified when the drying cycle is ready to end.

G13LC-MLCE10ZEMW-A

The new Gibson CleanPro high-efficiency laundry center will be your best new investment.

This American-style appliance is constructed with the washer on the bottom and the dryer on top and requires only a slim 686mm/27inch wide area. It can even fit in a closet and is ideal for condos and small apartments.

The MLCE10ZEMW operates with energy and cost-saving features and functions similar to a front load washer. It senses the

laundry load size and automatically determines the appropriate level of water needed. The controls offer 9 wash programs (including specialty cycles such as bed sheets, blankets and quick wash), 5 wash/rinse temperature combinations, 9 dry cycles (including 6 automatic cycles) and 4 temperature options for drying.

You can have peace of mind using a Gibson laundry center to safely clean your laundry!

The ProAction Tub with Lifetime Warranty is durable and guaranteed to last for the life span of the washer.

The Out-of-Balance Protection System ensures quiet operation for small and extra large loads.

The Balanced Dry System creates an airflow pattern that allows for maximum efficiency and even drying.

The 6 Automatic Drying Cycles will help to keep your clothes looking new by preventing overdrying.

Agitator-Style Top Load Washer

- 16 kg Capacity
- Rotary Electronic Controls
- 7 Wash Programs
- 4 Manual and 1 Auto Wash/Rinse Temperature Combinations
- 4 Manual and 1 Auto Water Level Control
- Auto Wash Action Time Control
- Auto Spin Level Control
- Wash Only, Rinse Only, Spin Only, Wash and Rinse Only, Wash and Spin Only, and Rinse and Spin Only
- Pre-wash
- Eco Rinse
- Hot and Cold Water Fill
- Fabric Softener and Bleach Dispensers
- Safety Lid Lock
- Balanced Control System
- Water Level Sensor
- Self-Cleaning Lint Filter
- Stainless Steel Tub with Agitator
- Program Status Lights
- Attached Drain Hose
- Attached Power Cord
- White Color

The new Gibson top load washer model MLTU16FGAWB will wash your largest laundry loads with a capacity of 16kg. This model is designed with an agitator and has hot and cold water inlets. You can program the washer yourself using one of the four wash/rinse temperature combinations or one of the four water level options, or you can allow the washer to determine the appropriate selection for you.

The 7 wash programs include heavy duty, cottons/normal, synthetics,

delicates, bed sheets, quick wash and extra spin. You can also customize the cycle by choosing one of the six wash, spin or rinse options. Check on the status of the wash cycle through the program status lights or by looking at your laundry through the tempered glass lid.

Pair the MLTU16 with its companion dryer model MKRN15FWAWB.

You can have peace of mind using a Gibson washer to clean your laundry!

Cooking and baking is simple and safe with a Gibson American-style electric cooker. The rear control panel has Deluxe Electronic Cooking Controls with an electronic clock with timer, cooktop controls, oven thermostat, and cooktop hot surface indicator light. The location of the control panel puts it out of reach for small children.

The smooth Ceramic Glass Cooktop is easy to clean up spills. The Self-Cleaning Oven takes away the oven cleaning chore.

Program the Delay Start to begin baking in the oven at a later time of the day. The

Preheat function alerts you when the oven has reached the temperature you selected.

The 2 Adjustable Oven Racks can be placed in any of the 5 rack positions to suit your baking and broiling needs.

Depending on your kitchen design, choose from a white model or a stainless steel model with black accents.

You can have peace of mind preparing your meals with a Gibson electric cooker!

Make cooking even more enjoyable with the help of a Gibson cooker hood. These new 76cm wide models are designed for use in a kitchen with a 76cm American-style cooker. They are available with one or two motors and your choice of white, silver or stainless steel.

Unpleasant exhaust and cooking aromas will be efficiently removed from the air. Each model is built with one or two charcoal filters that can easily be replaced. The three metal cassette filters are constructed with five layers for efficient filtration. The cassette filters are also easy to remove and clean and are dishwasher safe.

The controls are located on the front panel and include a power-on indicator light and buttons for the lights, speed control and fan speeds. The glass shield, which is attached to the front panel, blocks the air suction from coming in contact with the chef. All models have two lights that help to brightly illuminate the cooking surface below.

For your safety, the thermal overload cut-off function prevents the cooker hood from overheating. You can have peace of mind using a Gibson cooker hood!

Microwave

- 30 Liter
- Combination Grill
- Digital Clock and Push Button Controls
- Stainless Steel Door and Silver Cabinet
- 5 Power Levels
- Auto Weight Defrost
- Express Cooking
- Pre-Set Function
- Turntable
- Oven Light
- Safety Lock

The 30-liter GMT530K2HPM has a digital clock and push button controls and 5 power levels for microwaving your meals. The combination grill function alternately grills and microwaves your food to give it a grilled look and taste.

Auto weight defrost automatically calculates the defrost time for you based on the weight entered. Express cooking

gives you high power cooking at the touch of a button for a certain number of seconds or minutes.

You can have peace of mind preparing your food in a Gibson microwave!

A+
ENERGY
RATING

Gibson freestanding dishwasher model GDFC12JFCWD and GDFC12JFCSD can conveniently wash 12 place settings of your dinnerware with one of six wash programs. The half load option is perfect for washing six or fewer place settings.

The delay start timer allows you to start the wash cycle within a 24-hour period. You can monitor the time remaining until the cycle ends with the time remaining display.

This model is available in stainless steel or white and has earned an 'A+' Energy Rating, which will save you money as well as save the environment.

You can have peace of mind knowing that your dishes are being cleaned thoroughly and safely in a Gibson dishwasher!

Standard Features Available on all Models:
Permanent Magnet Motor Type
Stainless Steel & Celcon Sink Flange
Positive Seal Stopper
Removable Splash Guard
ABS Waste Elbow
Continuous Feed
Stainless Steel Turntable
Glass Filled Nylon Hopper
Corrosion Proof Glass Filled Polyester Grinding Chamber
Permanently Lubricated, Sleeve Type Bearings
Manual Reset Overload Protector

UXCA05JWPWA

½ HP Motor
2600 RPM Motor Speed
2.25 Amps
Heavy Gauge Stainless Steel Grind Ring
Stainless Steel Swivel Impellers
CE / SASO Approved

UXCB05JWPWA

½ HP Motor
2600 RPM Motor Speed
2.25 Amps
Sound Insulator
Stainless Steel Grind Ring
Stainless Steel Swivel Impellers
CE / SASO Approved

UXDC07JWPWA

¾ HP Motor
2700 RPM Motor Speed
3 Amps
Sound Insulator
Stainless Steel Grind Ring
Cast Stainless Steel Swivel Impellers
CE / SASO Approved

UXED10JWPWA

1 HP Motor
2800 RPM Motor Speed
3.5 Amps
Sound Insulator
Stainless Steel Grind Ring
Cast Stainless Steel Swivel Impellers
CE Approved
